

## Internal Demo:

User Module ([Jira Epic link](#)) > Frontend Forms ([Jira Sprint link](#))

### Overview

**Presenter(s):** Caner Canbaz

**Attendees:** Ramdane Mir, Alexandre Bailleul, Paul Payen, Aref Lazrek

**Functional specs:** [Confluence link](#)

**Design:** [Figma link](#)

**Video recording:** [Loom link](#)

### Deliverables

#### Demo link(s):

- Login: [link](#)
- Register: [link](#)
- Forgot password: [link](#)

### Action items

- Register
  - Incomplete form submission
  - Successful form submission
  - Check if the confirmation email is received
    - Click on "Resend" to resend the confirmation email
    - Reload the page to see the persistent countdown
- Verify the account
  - Incomplete form submission
  - Submit an invalid verification code
  - Click on the correct link in the confirmation email and check if account gets verified
- Login
  - Incomplete form submission
  - Invalid credentials
  - Successful login
  - Register a new user but don't verify the account
    - Log into the account and see if redirected to the verification page
    - Check if the confirmation email is received

- Click on the link in the confirmation email and see if account is verified
- Forgot password
  - New email address (still successful toast to avoid enumeration)
  - Existing email address
    - See if the reset password email is received
    - Click on the link in the reset password email
    - Check new password page
      - Incomplete form submission
      - Password doesn't match
      - Successful submission and login with the new password

## Demo Notes (bugs, known issues, potential upgrades)

Description	Screenshot (if any)	Ticket
Password reqs should remain grey until lost focus		CS-708
Phone input is validated once country code is added while it's not required		CS-709
On resending the confirmation code, shall we discard the previous one ?		CS-710
Switching between languages, stuck with French		CS-717
Checkbox label is not clickable and incorrectly aligned		CS-718
Login: show another error for rate limit		CS-711
Stack trace should be hidden on errors		CS-716
Reset password: special chars not allowed		CS-712
Add autocomplete prop for inputs (password/email...)		CS-713
Possible upgrade - later: redirect back after login		CS-714
Increase rate limit?		CS-715
Remove subtitle in "new		CS-719

password page”

## Team Feedback

Attendee	Feedback
	Report and schedule issues when they appear (e.g. checkbox design issue) either in the sprint or later.
	Cypress testing ?
Ramdane Mir	<p>Good</p> <ul style="list-style-type: none"> <li>• Great demo with the use cases and known bugs</li> <li>• Well prepared</li> <li>• Good collaboration with Caner during the development</li> <li>• Great collaboration with Alex during the design phase</li> <li>• Nice template for the demos</li> <li>• Great team feedback</li> </ul> <p>Improve</p> <ul style="list-style-type: none"> <li>• Why not fix components during the dev?</li> <li>• Font issues were reported in the previous sprint but still there</li> </ul>
Caner Canbaz	<p>Good:</p> <ul style="list-style-type: none"> <li>• The features are working as expected</li> <li>• UI seems to be aligned with the design</li> <li>• Team contribution during the demo was good - thanks for your contributions!</li> </ul> <p>To Improve:</p> <ul style="list-style-type: none"> <li>• Missed some tests about rate limiting</li> <li>• Would be good to discuss small details with PM: <ul style="list-style-type: none"> <li>○ Only last verification code should work</li> <li>○ New password page subtitle (different from previous passwords)</li> </ul> </li> </ul>
Alexandre Bailleul	<p>Good</p> <ul style="list-style-type: none"> <li>• Specs followed</li> <li>• Develop time aligned with estimation (106%)</li> <li>• Great initiative with the demo document :clap:</li> </ul>

	<p>Improve</p> <ul style="list-style-type: none"> <li>• :shrug:</li> </ul>
Aref Lazrek	<p>Good:</p> <ul style="list-style-type: none"> <li>• Good quality and well prepared</li> <li>• Nearly pixel perfect</li> </ul> <p>To improve:</p> <ul style="list-style-type: none"> <li>• Testing some edge cases?</li> </ul>
Paul Payen	<p>Good :</p> <ul style="list-style-type: none"> <li>• Quick presentation / Prepared and in staging ! (I still need another Dev centric demo where we put a developer using Sharewise in the center as a main user )</li> <li>• Good features / Good preparation of scenarios with WaOUh effect :star-struck:</li> <li>• Seems on track with estimations</li> <li>• Good collaboration during the demo (in 30 mins we have a lot of feedback).</li> </ul> <p>To improve:</p> <ul style="list-style-type: none"> <li>• IDK ? Maybe we want the epic finished :smile:</li> </ul>

## Retrospective actions

- Schedule a test strategy meeting (Alex)
- Think about having two sections in demo (user-centric & integrator-centric)
